BAHL, R. K., Surjit SINGH and Narindra K. BALI.—A study of the periodates of zirconium 141
—— Periodates of cobalt and nickel 227
BALI, Narindra K.—See R. K. BAHL and Surjit SINGH.
BANERJEE, T., H. CHAKRAVORTY and S. SARKAR.—On the photochemical decomposition of platinum complexes. Part I. Photochemical decomposition of the platinum complexes with oxalic acid and malonic acid 207
BASU, K. P. and J. N. KARKUN.—Glucose dehydrogenase from germinated seeds of green and black grams (*Phaseolus radiatus* and *Phaseolus mungo*, Linn.) ... 229
—— Succinic acid dehydrogenase from cucumber seeds 277
BHAGWAT, W. V.—See P. M. TOSHNIWAL.
BHATTACHARYYA, S. K.—See J. C. GHOSH.
BHIDE, B. V.—See S. P. WALVEKAR.
BHISSE, P. B.—See R. KAUSHAL.
BHUIYAN, A. B.—See S. P. ROYCHOUDHURI.

CHAKRAVARTI, Amritansu Sekhar.—Viscosity of mixed solutions containing three and four ionic species 41
CHAKRAVARTI, Duhkhaharan and Syed Abdul MOMEN.—Synthesis of coumarins from *o*-hydroxy-aryl alkyl ketones. Part IV. Formation of *o*-coumaric acids from *o*-hydroxy-aldehydes 338
CHAKRAVARTI, Ram Narayan.—Action of sodium on ethyl β-methylbutane-$\alpha\beta\delta$-tricarboxylate. Part I. 173
—— Action of sodium on ethyl β-methylbutane-$\alpha\beta\delta$-tricarboxylate. Part II. Structure of ethylated condensation product 189
—— Action of sodium on ethyl β-methylbutane-$\alpha\beta\delta$-tricarboxylate. Part III. A synthesis of *cis*-allosantenic acid 243
—— Action of sodium on ethyl β-methylbutane-$\alpha\beta\delta$-tricarboxylate. Part IV. ... 247
—— Studies in the rearrangement of camphorquinone. Part I. Formation and reactions of the inactive modification of 2:2:3-trimethyl-*cyclo*hexan-4-one-1-carboxylic acid 301
—— A new method of formation of eudalene 393
—— The action of sodium on ethyl β-methylbutane-$\alpha\beta\delta$-tricarboxylate. Part V. ... 399
CHAKRAVARTI, S. N.—*o*-Aldehydocarboxylic acids. Part IV. Synthesis of 5:6-methylenedioxyphthalaldehydic acid 382
CHAKRAVORTI, H.,—See T. BANERJEE.
CHATTERJEE, Nripendra Nath and Hitendra Bhusan Roy.—A new route to polycyclic compounds having angular methyl group. Synthesis of *iso*chrysofluoren. ... 329
CHATTERJI, A. C.—See B. P. YADAVA.
CHAUDHURI, D. K.—See B. N. GHOSH.
CHOWDHURY, J. K. and R. M. Datta.—Recovery of elementary sulphur from gases containing H_2S 253

DAS-GUPTA, S. J.—Chemotherapy of malaria 137
DATTA, R. M.—See J. K. CHOWDHURY.
DESHAPANDE, S. S.—See R. KAUSHAL.
DHAR, N. R. and S. GHOSH.—A new group of colloidal electrolytes 282
DOJA, M. Q. and Dhanushdhar PRASAD.—Photographic sensitisers derived from quinaldine 153
DUTT, Nihar Kumar.—See Priyada Ranjan RAY.

GANGULI, N. C.—On an unambiguous synthesis of camphor. Part I. Synthesis of amphononic acid 101

PAGE

GANGULY, P. B.—See B. P. GYANI.
GHOSE, Sailaja Prasad and Priyadaranjan RAY.—Magnetic susceptibility and the constitution of nitroso-pentammine cobalt salts 409
—— See also Priyadaranjan RAY.
GHOSH, B. N. and D. K. CHAUDHURI.—Estimation of some of the amino-acids in cobra (*Naja Naja*) neurotoxin 22
GHOSH, Bholanath.—Existence of some transient hydrates 120
—— Spreading of liquids on mercury surface 349
GHOSH, J. C. and S. K. BHATTACHARYYA.—Photochemical studies in gels. Part I. The reduction of ferric chloride by mandelic acid in light of different frequencies in thorium phosphate gel as a solvent medium. 377
GHOSH, S.—See N. R. DHAR.
GOPAL, Rama.—A statistical study of the variation of specific conductivity with concentration of electrolytes in aqueous solution 62
—— Supersaturation limits of solutions. Part I. 183
GUHA, Sisir Kumar.—Dyes derived from acenaphthenequinone. Part VIII. (7-Methyl) thionaphthene-acenaphthylene-indigos 37
GYANI, B. P. and P. B. GANGULY.—Studies on adsorption in relation to constitution. Part II. Adsorption of organic acids on activated silica gel 331

JAIN, D. C.—See N. A. YAJNIK.
JOGA RAO, A.—A viscometric method for studying the kinetics of alcoholysis of esters ... 69

KARKUN, J. N.—See K. P. BASU.
KAUSHAL, R.—Molar refraction and the structure of oxymethylene ketones 53
—— Pyrones and related compounds. Part IV. Action of bases on 2:6-dihydroxypyrone 127
KAUSHAL, R., P. B. BHISSE and S. S. DESHAPANDE.—Pyrones and related compounds. Part III. A new reaction product of acetone dicarboxylic acid and acetic anhydride 51
KRISHNA, S.—See S. V. PUNTAMBEKAR.

LAL, B. B.—See P. S. MACMAHON.

MACMAHON, P.S. and B B. LAL.—The question of activated oxalic acid 143
MACMAHON, P. S. and T. N. SRIVASTAVA.—Some reactions of carboxylic acids in aqueous solution 307
MAJUMDAR, Anil Kumar.—Biguanide sulphate as a reagent for the estimation of nickel ... 289
MANKAD, B. N.—See K. G. NAIK and R. K. TRIVEDI.
MEHTA, C. M.—See K. G. NAIK.
MEHTA, S. D.—See Mata PRASAD.
MEHTA, S. M.—See K. G. NAIK.
MIAH, Abul Hussain—See S. P. ROYCHAUDHURI.
MOGHE, V. A.—See P. M. TOSHNIWAL.
MOMEN, Syed Abdul.—See Duhkhaharan CHAKRAVARTI.
MOOKERJEE, (Miss) A.—The alkaloids of *Rauwolfia Canescens*, Linn. Part III. Some degradation products of rauwolscine 11
MUKERJI, Shankaranand —See Dushyant Narasingasa SOLANKI

NAIK, K. G., R. K. TRIVEDI and S. M. MEHTA.—Chemical activity of halogen derivatives of substituted amides of malonic acid. Part I. Interaction of Grignard's reagent on the chloro derivatives of substituted amides of malonic acid ... 345
—— Chemical activity of halogen derivatives of substituted amides of malonic acid. Part II. Velocity of replacement of chlorine atom of the group -CHCl- in monochloro derivatives of substituted amides of malonic acid 355

PAGE

NAIK, K. G., R. K. TRIVEDI and C. M. MEHTA.—Relations between chemical activity and absorption in the ultraviolet of certain organic molecules. Part III. The velocity of replacement of the chlorine atoms in the chloro derivatives of the substituted amides of malonic acid 365

—— Relations between chemical activity and absorption in the ultraviolet of certain organic molecules. Part IV. The interaction of phenylhydrazine with the chloro derivatives of the substituted amides of malonic acid ... 369

—— Relations between chemical activity and absorption in the ultraviolet of certain organic molecules. Part V. The interaction of atoxyl with the halogen derivatives of substituted amides of malonic acid 372

NAIK, K. G., R. K. TRIVEDI and B N. MANKAD.—Relations between chemical activity and absorption in the ultraviolet of certain organic molecules. Part VI. Interaction of nitrosyl chloride on substituted amides of acetoacetic acid. ... 384

—— Relations between chemical activity and absorption in the ultraviolet of certain organic molecules. Part VII. Absorption spectra of the amides of acetoacetic acid 387

—— Relations between chemical activity and absorption in the ultraviolet of certain organic molecules. Part VIII. Absorption spectra of monochloro derivatives of the amides of acetoacetic acid 407

—— Relations between chemical activity and absorption in the ultraviolet of certain organic molecules. Part IX. Absorption spectra of *iso*nitroso derivatives of the amides of acetoacetic acid 414

NARASIMHAM, M.—See S. N. PAL.

NARASINGARAO, M.—See C. VENKATARAO.

NATHAN, (Miss) A.—The effect of H-ion concentration on the viscosity changes in thorium phosphate gel-forming mixtures during setting 56

—— The effect of hydrogen-ion concentration on the time of setting of thorium phosphate gel-forming mixtures 159

NAYAR, M. R. and J. R. SARAF.—Raman-spectra of some complex halides of mercury ... 312

OWEN, M. D.—Experiments on the synthesis of caryophyllenic acid 343

OZA, Trambaklal Mohanlal and M. S. SHAH.—The mechanism of the action of charcoal on potassium nitrate. Part II. A detailed study of the reactions 261

OZA, Trambaklal Mohanlal and Bhaskar Ramkrishna WALAWALKAR.—Isolation of pure potassium nitrite from the commercial substance 315

PAL, S. N. and M. NARASIMHAM.—A note on the alkaloid of *Eclipta Alba* (Hassk) ... 181

PHALINKAR, N. L.—See S. P. WALVEKAR.

PRASAD, Dhanusdhar—See M. Q. DOJA.

PRASAD, Mata and S D. MEHTA.—The time of setting and changes in H-ion concentration during the setting of gels formed by the interaction of oppositely charged sols. Part II. The interaction of nickel hydroxide and manganese dioxide sols with aluminium hydroxide sol. 166

PUNTAMBEKAR, S. V. and S. KRISHNA —Latex of some indigenous rubber yielding plants. Part I. *Excaecaria Agallocha*, Linn 178

RAM CHAND—See N. A. VAJNIK.

RAO, P. L. Narasimha.—Synthesis of *dl*-pinonic acid 97

RAY, Priyadaranjan and Sailaja Prasad GHOSE.—Complex compounds of biguanide with bivalent metals. Part IV. Palladium biguanidine and its salts 19

—— Complex compounds of biguanide with bivalent metals. Part VII. Copper, nickel and cobaltous ethylenedibiguanide salts. Cobaltous biguanidinium sulphate and hydroxide 291

—— Magnetic susceptibility of cobaltous complexes and their constitution ... 323

RAY, Priyadaranjan and Sushil Kumar SIDDHANTA.—Complex compounds of biguanide with bivalent metals. Part V. Copper and nickel *meta*phenylenedibiguanidine and their salts 200

PAGE

—— Complex compounds of biguanide with bi- and tervalent metals. Part VI. Copper, nickel and cobalt(ic) phenylbiguanide-*p*-sulphonic acid 250

RAY, Priyadaranjan and Nihar Kumar DUTT.—Kinetics and mechanism of racemisation of optically active cobaltic *tris*biguanide complex 81

—— See also Sailaja Prasad GHOSH, and Sushil Kumar SIDDHANTA.

RAY, R. C.—See Bageshwari Nath Sahai, also P. C. SINHA.

RAYCHOUDHURI, S. P. and A. B. BHUIYAN.—Kinetics of soil organic matter. Part I. Relative orders of oxidation with some chemical agents 76

RAYCHOUDHURI, S. P. and Abul Hussain MIAH.—A preliminary study of the ageing of alumina and silica gels and of the precipitates obtained from mutual coagulation of alumina and silicic acid sols 195

ROY, Hitendra Bhusan.—See Nripendra Nath CHATTERJEE.

SAHAI, Rai Bageshwari Nath and R. C. RAY.—Hydrides of nickel 213

SARAF, J. R.—See M. R. NAYAR.

SARKER, S.—See T. BANERJEE.

SEN, Sailesh Chandra.—See Bawa Kartar SINGH.

SETHNA, S. M.—See P. L. TRIVEDI.

SHAH, M. S.—See Trambaklal Mohanlal OZA.

SHAH, R. C.—See P. L. TRIVEDI.

SIDDHANTA, Sushil Kumar and Priyadaranjan RAY.—Gray and Cruickshank's method and the diamagnetic susceptibilities of dicyandiamide, acetamide and cyanuric acid ... 359

—— See also Priyadaranjan RAY.

SINGH, Bawa Kartar and Sailesh Chandra SEN.—Studies on the dependence of optical rotatory power on chemical constitution. Part XXI. The rotatory dispersion of stereoisomeric hydroxyphenylamino-methylenecamphors and their acetylated and benzoylated derivatives 1

SINGH, Surjit—See R. K. BAHL.

SINHA, P. C. and R. C. RAY.—Pyridine complex of metallic perchlorates. Part I. ... 32

SOLANKI, Dushyant Narasingasa.—Influence of non-electrolytes on the decomposition potential of aqueous silver nitrate 105

SOLANKI, Dushyant Narasingasa and Shankaranand MUKERJI.—Transport numbers of aqueous silver nitrate in presence of sucrose and measurements of conductivity, viscosity, density and refractivity 93

SRIVASTAVA, T. N.—See P. S. MACMAHON.

TELANG, M. S.—Derivation of Trauton's rule 271

TILLU, M. M.—Separation of cobalt from nickel using acetone as solvent 139

TOSHNIWAL, P. M., V. A. MOGHE and W. V. BHAGWAT.—Parachor of chromium trioxide in water 341

TRIPATHI, R. C.—On a relation between surface tension and vapour pressure of liquids and liquid mixtures 197

TRIVEDI, P. L., S. M. SETHNA and R. C. SHAH.—Kostanecki-Robinson reaction. Part V. Benzoylation of some *o*-hydroxy-ketones 171

TRIVEDI, R. K. and B. N. MANKAD.—Relations between chemical activity and absorption in the ultraviolet of certain organic molecules. Part X. Velocity of hydrolysis of substituted amides of acetoacetic acid 415

—— Relations between chemical activity and absorption in the ultraviolet of certain organic molecules. Part XI. Velocity of replacement of the chlorine atoms in the chloro derivatives of the substituted amides of acetoacetic acid 421

—— See also K. G. NAIK.

VENKATARAO, C. and M. NARASINGA RAO.—Chemical examination of the seeds of *Vateria Indica*. Part I. Component fatty acids of the fat 239

PAGE

—— The chemical examination of the seeds of *Vateria indica*. Part II The component glycerides of the fat 298

VENKATARAO, C., M. NARASINGARAO and A. VENKATESWARLU.—Fatty acid composition of tobacco seed oil 374

—— Oil from the seeds of *Bombax malabaricum* 403

VIDYARTHI, N. L.—The component glycerides of vegetable fatty oils. Part II. Safflower oil 45

VIJAYARAGHAVA, K. V.—A note on mercury diallyl 318

WALAWALKAR, Bhaskar Ramkrishna—See Trambaklal Mohanlal OZA. ... ...

WALVEKAR, S. P., N. L. PHALNIKAR and B. V. BHIDE.—Mechanism of fission of ethers. Part I. Fission of aromatic ethers in non-aqueous solvents 131

YADAVA, B. P.—Charge and stability of colloids. Part II. Effect of non-electrolytes ... 110

—— Charge and stability of colloids. Part III. Potentiometric titration of ferric hydroxide sol. 115

—— Charge and stability of colloids. Part IV Potentiometric titration of chromium hydroxide sol. 123

—— Charge and stability of colloids. Part V. Potentiometric titrations of chromium hydroxide sol- 219

—— Charge and stability of colloids. Part VI. Study of the adsorption of precipitating and stabilising ions by As_2S_3 and $Fe(OH)_3$ sols at their coagulating concentrations 223

YADAVA, B. P. and A. C. CHATTERJI.—Charge and stability of colloids. Part I. Adsorption of oppositely charged ions under different conditions 25

YAJNIK, N. A., RAM CHAND and D. C. JAIN.—Magnetic evidence regarding the valency of colourant ions in glass Part II. 169

—— Magnetic study of colour changes in copper chloride 203

SUBJECT INDEX

A

PAGE

Absorption in the ultraviolet of certain organic molecules, relation between chemical activity and (NAIK, TRIVEDI & MEHTA) ... 365, 369, 372, 384, 389, 407, 414, 415, 421
Acenaphthenequinone, dyes derived from (GUHA) 37
Acetoacetic acid (chloro derivatives of the substituted amides), velocity of replacement of the chlorine atoms in (TRIVEDI & MANKAD) 421
- (substituted amides), interaction of sulphuryl and nitrosyl chloride on (NAIK, TRIVEDI & MANKAD) 384
- (amides), absorption spectra of (NAIK, TRIVEDI & MANKAD) 389
Acetoacetic acid (monochloro and *iso*nitroso derivatives of the amides of), absorption spectra of (NAIK, TRIVEDI & MANKAD) 407
- (substituted amides of), velocity of hydrolysis of (TRIVEDI & MANKAD) ... 414, 415
Acetone dicarboxylic acid, reaction with acetic anhydride (KAUSHAL, BHISSE & DESHAPANDE) 51
Adsorption of organic acids on activated silica gel (GYANI & GANGULY) 331
Alcoholysis of esters, a viscometric method for studying the kinetics of (JOGA RAO) ... 69
o-Aldehydo-carboxylic acids (CHAKRAVARTI) 382
cis-Allosantenic acid, synthesis of (CHAKRAVARTI) 243
Alumina and silica gels, ageing of sols, and precipitates obtained by mutual coagulation of (RAYCHOUDHURI & MIAH) 195
Aluminium hydroxide sol, potentiometric titrations of (YADAVA) 123
Amino-acids, estimation of, in Cobra (*Naja naja*) neurotoxin (GHOSH & CHAUDHURI) ... 22

B

Biguanide compounds (RAY & GHOSE) 19, 290
(RAY & SIDDHANTA)... ... ... 200, 250
Biguanide sulphate as a reagent for the estimation of nickel (MAJUMDAR) 289
Bombax malabaricum, oil from the seeds of (RAO, RAO & VENKATESWARLU) 403
Butane (β-methyl-)$\alpha\beta\delta$-tricarboxylic acid, ethyl ester of, action of sodium on (CHAKRAVARTI) 173, 189, 243, 247, 399
*cyclo*Butane (1-carboxy-2: 2-dimethyl-)-3-acetdiphenylamide and diethyl ester (RAO) ... 98

C

Camphononic acid (GANGULY) 104
Camphor, synthesis of (GANGULY)... 101
Camphor (hydroxyphenylaminomethylene), the rotatory dispersion of (SINGH & SEN) ... 1
Camphoronic acid (GANGULY) 103
Camphorquinone, rearrangement of (CHAKRAVARTI) 301
Carboxylic acids, some reactions of, in aqueous solutions (MACMAHON & SRIVASTAVA) ... 307
Caryophyllenic acid, experiments on the synthesis of (OWEN) 343
Charcoal, mechanism of the action on potassium nitrate (OZA & SHAH) 261
Charge and stability of colloids (YADAVA & CHATTERJI) 25
- (YADAVA) 110, 115, 123, 219, 223

PAGE

Chromium hydroxide sol, potentiometric titrations of (YADAVA) 219
Chromium trioxide, parachor of, in water (TOSHNIWAL, MOGHE & BHAGWAT) 341
*iso*Chrysofluoren (CHATTERJEE & ROY) 329
Cobalt periodates (BAHL, SINGH & BALI) 227
Cobalt, separation of, from nickel using acetone as a solvent (TILLU) 139
Cobaltous biguanidinium sulphate and hydroxide (RAY & GHOSE) 296
Cobaltous complexes. magnetic susceptibility and constitution of, (RAY & GHOSH) ... 323
Cobaltous ethylene dibiguanidinium sulphate and hydroxide (RAY & GHOSE) 291
Cobaltic *tris*biguanide complex (optically active), kinetics and mechanism of racemisation of (RAY & DUTT)... 81
Cobra neurotoxin, estimation of the amino-acids in (GHOSH & CHAUDHURI) 22
Colloidal electrolytes, a new group of (DHAR & GHOSH) 282
Colourant ions in glass, magnetic evidence regarding the valency of (YAJNIK, RAM CHAND & JAIN) 169
Copper chloride, magnetic study of the colour changes in (YAJNIK, RAM CHAND & JAIN) ... 203
Copper ethylene dibiguanidine and dibiguanidinium sulphate and hydroxide (RAY & GHOSE) 291
o-Coumaric acids from *o*-hydroxy-aldehydes (CHAKRAVARTI & MOMEN)... 338
Coumarins from *o*-hydroxy-arylalkyl ketones (CHAKRAVARTI & MOMEN) 338

D

Decomposition potential of aqueous silver nitrate, influence of non-electrolytes on (SOLANKI) 105

E

Eclipta alba (Hassk), alkaloid in (PAL & NARASIMHAM) 181
Eudalene, a new method of formation of (CHAKRAVARTI) 393

F

Ferric chloride, reduction of, by mandelic acid in light of different frequencies in thorium phosphate gel as a solvent medium (GHOSH & BHATTACHARYYA)... 377
Ferric hydroxide sol, potentiometric titrations of (YADAVA) 115
Flavone (7 or 5-benzoyloxy-3-benzoyl-, 7 or 5-hydroxy-3-benzoyl-, 7 or 5-hydroxy-, 5:7-dibenzoyloxy-3-benzoyl-, 5:7-dihydroxy-3-benzoyl-, 5:7-dihydroxy-) (TRIVEDI, SETHNA & SHAH) 171, 172

G

Gels formed by interaction of oppositely charged sols (nickel hydroxide and manganese dioxide sols with aluminim hydroxide sol) (MATA PRASAD & MEHTA) 166
Glucose dehydrogenase from germinated seeds of green and black grams (BASU & KARKUN) 229
Glutaconic acid (α-cyano-βγγ-trimethyl), ethyl ester of (GANGULY) 102
Glutaric acid (αβ-dicyano-βγγ trimethyl), ethyl ester of (GANGULY) 103

H

*cyclo*Hexan (2:2:3-trimethyl-)-4-one-1-carboxylic acid, formation and reactions of (CHAKRAVARTI) 301
-(2:2:3-trimethyl)-1-one-4:6-dicarboxylic acid and its derivatives (CHAKRAVARTI) ... 305
*cyclo*Hexane (1-α-naphthyl-2-methyl)-2-carboxylic and its ethyl ester (CHATTERJEE & ROY) 330
*cyclo*Hexane (1:2:2-trimethyl-)-3 carboxylic acid (CHAKRAVARTI) 304
*cyclo*Hexane (1:2:2-trimethyl)-3-carboxylic acid, selenium dehydrogenation of the methyl oster of (CHAKRAVARTI) 304

PAGE

n-Hexane (-methyl-)-$\alpha\beta\delta$-tricarboxylic acid (CHAKRAVARTI) 191
- (γ-methyl-)-$\alpha\gamma\delta$-tricarboxylic acid (CHAKRAVARTI) 191
- ($\gamma\delta$-dicyano-γ methyl)-$\alpha\delta$-dicarboxylic acid, ethyl ester of (CHAKRAVARTI) ... 191
- ($\alpha\beta$-dicyano-β-methyl)-$\alpha\delta$-dicarboxylic acid, ethyl ester of (CHAKRAVARTI) ... 193
*cyclo*Hexanol (1-α-naphthyl-2-methyl)-2-carboxylic acid, ethyl ester of (CHATTERJEE & ROY) 330
*cyclo*Hexanone-2-methyl-2-carboxylic acid, ethyl ester of (CHATTERJEE & ROY) 329
*cyclo*Hexene (1-α-naphthyl-2-methyl)-2-carboxylic acid, ethyl ester of (CHATTERJEE & ROY) 330
Δ^{α}-Hexene (α-cyano-β-methyl-$\alpha\delta$-dicarboxylic acid, ethyl ester of (CHAKRAVARTI) ... 193
Homophthalic acid (5:6-methylenedioxy-) (CHAKRAVARTI) 382
Hydrates, existence of some transient (GHOSH) 120
Hydrides of nickel (SAHAI & RAY) 213
1-Hydrindone (4-methyl-) (CHAKRAVARTI) 396
o-Hydroxy-ketones, benzoylation of (TRIVEDI, SETHNA and SHAH)... 171

L

Latex of some indigenous rubber yielding plants (PUNTAMBEKAR & KRISHNA) 178

M

Malaria, chemotherapy of (DAS-GUPTA) 137
Malonic acid, halogen derivatives of substituted amides of, chemical activity of (NAIK, TRIVEDI & METHA) 345, 355
Malonic acid (chloro derivatives of the substituted amides), the velocity of replacement of the chlorine atoms in (NAIK, TRIVEDI & MEHTA) 365
- the interaction of phenylhydrazine with (NAIK, TRIVEDI & MEHTA) 369
- (halogen derivatives of substituted amides), interaction of atoxyl with (NAIK, TRIVEDI & MEHTA) 372
Malonic acid (chloro derivatives of substituted amides of), interaction of Grignard's reagent on (NAIK, TRIVEDI & MEHTA) 345, 355
Malonic ester, *o*-xylyl (CHAKRAVARTI) 395
Manganese dioxide sols, interaction of, with aluminium hydroxide sols and nickel hydroxide (MATA PRASAD & MEHTA) 166
Mercury diallyl (VIJAVARAGHAVAN) 318
Mercury halides (complex), Raman spectra of (NAYAR & SARAF) 312
1-Methylbenzene-2-β-propionic-3-carboxylic acid (CHAKRAVARTI) 395
Methyl hexahydro-peri-benzanthron (CHATTERJEE & ROY) 330
Molar refraction and the structure of oxymethylene ketones (KAUSHAL) 53

N

Neurotoxin, estimation of some of the amino-acids in cobra (*Naja Naja*) (GHOSH & CHAUDHURI) 22
Nickel ethylenedibiguanide and dibiguanidinium sulphate and hydroxide (RAY & GHOSE) 291
Nickel hydrides (SAHAI & RAY)... 213
Nickel hydroxide and manganese dioxide sols with aluminium hydroxide sol, the time of setting and changes in hydrogen ion concentration of, during the setting of gels formed by interaction of (MATA PRASAD & MEHTA) 166
Nickel periodates (BAHL, SINGH & BALI) 227
Nickel phenylbiguanide -*p*-sulphonic acid and its salts (RAY & SIDDHANTA) 250
Nitrosopentammine cobalt salts, magnetic susceptibility and the constitution of (GHOSE & RAY) 409

O

Oxalic acid (activated), question of (MACMAHON & LAL) 143
Oxidation of soil organic matter, kinetics of (ROYCHOUDHURI & BHUIYAN) 76
Oxymethylene ketones, molar refraction and the structure of (KAUSHAL) 53

P

PAGE

Palladium biguanidine and its salts (RAY & GHOSE) 19
Parachor of chromium trioxide in water (TOSHNIWAL, MOGHE & BHAGWAT) 341
*cyclo*Pentan (2:4-dimethyl-)-1-one-4-carboxylic acid and 4:5 -dicarboxylic acid, ethyl ester of (CHAKRAVARTI) 176-177
*cyclo*Pentan (2:3-dimethyl-)-1-one-3:5-dicarboxylic acid, ethyl ester of (CHAKRAVARTI) ... 245
- (2:3-dimethyl-)-1-one- 3-carboxylic acid and ethyl ester (CHARRAVARTI)... ... 245
- (4-methyl-)-1-one-2:4-dicarboxylic-2-acetic acid, ethyl ester of (CHAKRAVARTI) ... 248
- (4-methyl-)-1-one-4-carboxylic -2-acetic acid (CHAKRAVARTI)... 248
*cyclo*Pentan (3-methyl-5 or 2-ethyl-)-1-one-3:5-dicarboxylic acid, ethyl ester of (CHAKRAVARTI) 191
- (3-methyl-5 or 2-ethyl)-1-one-3-carboxylic acid (CHAKRAVARTI) 191
- (3-methyl-5-ethyl) -1-one 2:3-dicarboxylic acid, ethyl ester of (CHAKRAVARTI) ... 193
- (3-methyl-5-ethyl)-1-one-3-carboxylic acid (CHAKRAVARTI) 194
*cyclo*Pentan (3-methyl)-1-one-3-carboxylic acid and derivatives (CHAKRAVARTI) ... 401
*cyclo*Pentane (3-oxy-1-methyl) 1:4 dicarboxylic acid (CHAKRAVARTI) 400
- (1-methyl)-1:3-dicarboxylic acid (CHAKRAVARTI) 401
*cyclo*Pentane (1-methyl-)-1-carboxylic-3-acetic acid (CHAKRAVARTI) 249
Pentane ($\alpha\beta\beta$ -trimethyl)- $\alpha\gamma\epsilon$-tricarboxylic acid, ethyl ester of (CHAKRAVARTI) ... 305
Pentane ($\gamma\delta$-dicyano-γ-methyl-)$\alpha\delta$ dicarboxylic acid, ethyl ester of (CHAKRAVARTI) ... 244
- (γ-methyl)-$\alpha\gamma\delta$-tricarboxylic acid (CHAKRAVARTI) 245
Pentane (β-methyl-)-$\alpha\beta\delta$-tricarboxylic acid (CHAKRAVARTI) 175
- (β-methyl-$\alpha\beta$ -dicyano-)-$\alpha\delta$ -dicarboxylic acid, ethyl ester of (CHAKRAVARTI) ... 176
Δ^8-*cyclo*Penten (1-methyl-)-1:3-dicarboxylic acid (CHAKRAVARTI)... 400
Δ^a-Pentene (α-cyano-β-methyl-) -$\alpha\delta$-dicarboxylic acid, ethyl ester of (CHAKRAVARTI) ... 176
Periodates of cobalt and nickel and zirconium (BAHL, SINGH & BALI) ... 227, 141
Phenylbiguanide-*p*-sulphonic acid and its copper, nickel and cobaltic salts (RAY & GHOSE) 250
meta-Phenylene dibiguanidine (copper and nickel), and their salts (RAY & SIDDHANTHA) ... 200
Photochemical decomposition of platinum complexes (BANERJEE, CHAKRAVORTY & SARKAR) 207
Photoreduction of ferric chloride by mandelic acid in light of different frequencies in thorium phosphate gel as a solvent medium (GHOSH & BHATTACHARYYA) 377
Phthalaldehydic acid (5:6-methylenedioxy-) (CHAKRAVARTI) 382
dl-Pinonic acid (RAO) 97
Platinum complexes, photochemical decomposition of (BANERJEE, CHAKRAVORTI & SARKER) 207
Potassium nitrite (pure), isolation of, from the commercial substance (OZA & WALAWALKAR) 315
4-Pyridone (2:6-dihydroxy-*N*-phenyl-) (KAUSHAL) 129
Pyrone (2:6-dihydroxy-), action of bases on (KAUSHAL) 127
Pyrones and related compounds (KAUSHAL, BHISSE & DESAPANDE) ... 51, 227

R

Raman spectra of some complex halides of mercury (NAYAR & SARAF) 312
Rauwolfia Canescens (Linn), the alkaloids of (MOOKERJEE) 11
Rauwolscine and derivatives (MOOKERJEE) 15

S

Safflower oil, the component glycerides of (VIDYARTHI) 45
Silica and alumina gels and the precipitates obtained from mutual coagulation of alumina and silicic acid sols (RAYCHOUDHURI & MIAH) 195
Soil organic matter, kinetics of oxidation of (RAYCHOUDHURI & BHUIYAN) 76
Specific conductivity, variation of, with concentration of electrolytes in aqueous solutions, a statistical study of (RAMA GOPAL) 62
Spreading of liquids on mercury surface (GHOSH) 349

PAGE

Succinic acid (*o*-xylyl-) and derivatives (CHAKRAVARTI) 395
Succinic acid dehydrogenase from cucumber seeds (BASU & KARKUN) 277
Sulphur (elementary), recovery of, from gases containing sulphuretted hydrogen (CHOWDHURY & DATTA) 253
Supersaturation limits of solutions (RAMA GOPAL) 183
Surface tension and vapour pressure of liquids and liquid mixtures, a relation between (TRIPATHI) 197

T

Tetrahydronaphthalene (1:2:3:4)-3-carboxylic acid (5-methyl-1-keto-)- (CHAKRAVARTI) ... 395
Thioacridine, 2-chloro-7-methoxy-5 (β-diethylaminoethyl or γ-diethylaminopropyl), 7-methoxy-5- (β-diethylaminoethyl or γ-diethylaminopropyl)- (DAS-GUPTA)... 137-138
Thionaphthene (7-methyl-) -acenaphthylene-indigo and derivatives (GUHA) 37
Thionaphthene (7-methyl-3-hydroxy-) (GUHA) 38
Thorium phosphate gel-forming mixtures, the effect of hydrogen ion concentration on the time of setting of (NATHAN) 159
Tobacco seed oil, fatty acid composition of (RAO, RAO & VENKATESWARULU) 374
Transport numbers of aqueous silver nitrate in presence of sucrose and measurements of conductivity, viscosity, density and refractivity (SOLANKI & MUKERJI) ... 93
Trouton's rule, derivation of (TELANG) 271

V

Valency of colourant ions in glass, magnetic evidence regarding the (VAJNIK, RAM CHAND & JAIN) 169
Vapour pressure and surface tension of liquids and liquid mixtures (TRIPATHI) ... 197
Vateria Indica, chemical examination of the seeds of (RAO & RAO) ... 239, 298
Viscosity of mixed solutions containing three and four ionic species (CHAKRAVARTI) ... 41

Z

Zirconium periodates (BAHL, SINGH & BALI) 141
